

FLU VACCINE CLINICAL TRIAL

PEDIATRIC SOLID ORGAN TRANSPLANT RECIPIANTS

This study is comparing high dose vs standard dose influenza vaccines in pediatric solid organ transplant recipients.

YOUR CHILD MAY QUALIFY FOR THIS STUDY IF THEY:

- 
- Are **3-17** years of age at the time of enrollment
 - Are a **kidney, heart,** and/or **liver** transplant recipient **1 month** to **less than 24 months** post-transplant
 - Have **not** yet received this season's flu vaccine after transplant

STUDY PROCEDURES INCLUDE:

- Four study visits
 - Administration of **high dose** flu vaccine or **standard dose** flu vaccine
 - Blood draw and nasal swab at each visit
- 

As a thank you, compensation will be provided.
